Cooper](#)

## Computer Scientist & ITAM

### Summary:

Computer Science student at the University of Central Florida (Spring 2026) with experience in full-stack development and cloud computing. Skilled in building web and mobile applications and working in agile team environments. Completed AWS Cloud Operations and Cloud Security Foundations training with hands-on experience in cloud infrastructure, security, and monitoring. Seeking to apply cloud and software engineering skills in a professional role.

### Education:

University of Central Florida | B.S in Computer Science | Spring 2026

### Coursework:

Calculus I,II,III | Computer Science I,II | Statistical Methods I,II,III | Processes Software Development | Operating Systems | Systems Software | Security in Computing & Computer Encryption | Object Oriented Programming | Computer Graphics | Operating Systems | AWS Cloud Operations | AWS Cloud Security Foundations

### Projects:

#### **Smart Stock | Frontend, Backend, Scrum Master, Project Manager:**

Web and Mobile application in which users can scan groceries into a virtual storage that keeps track of important details and even generates recipes using stored ingredients with AI.

- Implemented Receipt/Grocery Scanning
- Managed team/project through agile as well as managed sprints and backlogs to meet schedules and ensure quality.
- UI and backend for mobile
- Implemented AI Recipe Generation

#### **Trade Wizard Mobile App | Frontend, Backend Developer:**

This was a mobile android application that would analyze and calculate a trade score for fantasy football trades.

- Integrated a third-party fantasy football API to fetch up-to-date player rankings/statistics for trade comparisons.
- Built a trade-evaluation mobile app that scores proposed trades using a formula-based model; developed the full backend and UI end-to-end.

### Experience:

#### **FRP ITAM Intern:** *(May 2023 – September, 2023)*

- Resolved a wide range of IT support tickets, troubleshooting hardware/software issues across multiple device types.
- Assisted with basic server/cloud administration tasks in Microsoft Azure
- Supported user onboarding by provisioning accounts/devices and integrating new hires into internal systems.
- Maintained accurate asset inventory records and performed regular updates/audits to ensure data integrity.

#### **Target Trainer:** *(June 2021 – Present)*

- Trained and coached new Target team members across multiple roles, ensuring adherence to strict operational guidelines.
- Strengthened leadership and communication skills by coordinating large groups to meet daily performance goals

### Skills:

#### **Proficient in:**

Java | C | Python | HTML | JavaScript | CSS | C++ | Agile | Scrum Master | Sprint Planning

#### **Practiced:**

Dart | Android | C# | PHP

#### **Cloud & Infrastructure:**

AWS (EC2, S3, IAM, CloudWatch) | Cloud Operations | Cloud Security Fundamentals | Resource Monitoring | Identity & Access Management
